### MEDICAL.

#### FRENCH MEDICAL OFFICE.

DR. JULES PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptist Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Army Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, upstairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptoms are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Ulcer, Stricture, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves the diplomas under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call on or write to DR. PERRAULT, and he will investigate; claim not to know everything, but to cure everything, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.  
Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

#### Female Monthly Pills.

DR. PERRAULT is the only great California doctor who has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.  
Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 978 P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.  
All communications confidential. n15 1f

## SEMI-WEEKLY ENQUIRER.

**EDUCATIONAL MATTERS.**—The current monthly number of the *California Teacher* furnishes some interesting statistics in relation to schools throughout the State, from which we collate. There are in the State 84,042 children between five and fifteen years of age, of which 82,324 are white. There is a total of 136,189 children under fifteen years of age, of which 133,767 are white children. During the ten months ending June 30th last, the daily attendance at schools was 25,903. The number enrolled was 54,173, of which 29,661 were boys, 25,512 were girls. The number who did not attend any school during the year was 21,771, and the number who attended private Schools was 16,671. The average number of months during which Schools were taught, 6.1. The average salaries paid to Teachers, including board is to males, \$73 per month, and to females \$57. The number of Public Schools maintained was 453, and 104 districts have voted a special School tax. The total expenses of Public Schools throughout the State was \$359,229.19, of which \$551,362.92 was for Teachers' salaries. The total value of School property is put down at \$1,206,597.60. The number of Public Schools taught was 939, as follows, first grades, 168; second, 405; third, 386. There are in the State 736 School houses, of which 37 are brick, and 18 adobe, the rest wood. The number of Teachers employed was 1,268—597 males and 671 females; an average of one Teacher to every 434 scholars. There are 12 colored Schools in the State, of which 12 attend School. There are 69 deaf and dumb children between five and twenty one years of age, and 49 blind children between the same ages.

**PERRY DAVIS' PAIN KILLER.**—We have often spoken of this great medicine in terms of very high praise, and we have as often felt that all we could say in its favor would not do it full justice. It is one of those medicines of which we can speak and speak decisively—from experience; for we have repeatedly taken it, and invariably with the best results and the greatest satisfaction. We always keep it on hand, ready for an emergency, and we regard it not only as one of the very best and most reliable of medicines in use for various ills, but as one of the cheapest, also. Its cost, by the way—that is the cost of all the ingredients of which it is composed—has been considerably increased, but the price of the medicine has been but very little advanced. It is not likely that the popularity of Davis' Pain Killer will in any measure decrease, or that the demand for it will in the slightest degree decline, until some other specific for allaying pain and curing the various complaints for which it is so generally used, shall be discovered, of equal potency with it—of which there seems to be little probability. As a remedy for stomach complaints, such as dysentery, diarrhoea, &c., the Pain Killer is without doubt unsurpassed, and everywhere most deservedly in demand. One, two, or three doses, of a teaspoonful each, in a wine glass of milk and water, with a little sugar, have repeatedly, within our knowledge, effectually cured serious troubles of this kind. Judgment should undoubtedly be used in not checking certain stages of diarrhoea too suddenly; but taken at the proper time, the Pain Killer will act like a charm, and frequently cure when nothing else will.—*Providence Advertiser.*

#### MEMBERS OF THE MILITIA SUBJECT TO

JURY DUTY.—Judge Pratt, of the Twelve District Court, yesterday made a decision of considerable interest to members of the State Militia. A citizen who had been drawn to serve as a jurymen asked to be excused from service on the ground that since February last he had been a member of a volunteer militia company, organized under the Military Act of 1862, as amended in 1863. That law, as amended, exempted members of volunteer companies from doing jury duty during the time of their enrolment, and after seven years service, from jury duty thereafter. In 1866 the laws of 1862 and 1863 were repealed, and a new militia system adopted. The new law does not exempt militiamen from jury duty, and the Judge decided that those who volunteered under the previous laws cannot be exempted unless they have served full seven years, and that they cannot be exempted from jury duty while in the militia service. Practically, the Judge decides that all members of military companies are liable to do jury duty.

#### THE PROFITS OF A RACE HORSE.

By an account filed in the Probate Court at Chicago, in connection with the settlement of the estate of Trussell, the owner of half of the famous race horse, Dexter, it appears that, from June 15th, 1866, to the date of the account, less than four months, the horse earned for his owners \$22,777.53, whilst his expenses were \$6,785.10, the net profits being \$15,992.43.

#### SALUTE.

The Union men of Marysville fired a salute of thirty-six guns in honor of the glorious Union victories won on the 8th of November. So we learn from the *Special*.

#### The Boston Advertiser says that though

the President is in doubt whether the regulation of Congress is binding, he will, in the matter of salaries, give himself the benefit of the doubt.

# SEMI-WEEKLY ENQUIRER.

WEDNESDAY MORNING, NOV. 14th.

**Why Not Do It.**—During the past six months have been frequently asked why the people of Dutch Flat do not exert themselves and convert a road leading to Little York, Yon Bet, Red Dog and other places northwards? As soon as the railroad is finished to Wilson's or Cisco, the temporary depot now at Alta will be removed, and of course no more freight will be landed at that place, and as a consequence, the importance attached to that place departed as soon as the event of progression takes place. The Dutch Flat depot, on the other hand, will assume a more important position in life than at present it pretends to, and should those who are able, elect to build a road from this place leading to the towns west of us, Dutch Flat would yet become what its natural geographical location entitles it to—the grand center of the northwestern portion of our county as well as the eastern portion of Nevada. We do not advise a free road, for we have learned from experience that it is altogether improbable whether such a one will be ever built. But a good toll-road—one upon which reasonable size teams and vehicles can pass with ease. Such a road would doubtless be found a paying institution, besides affording facilities for trade and accommodation. Such would ultimately redound to the benefit of all concerned. The project at all events is worthy the serious consideration of our people. As a general thing we rather give toll-roads a wide berth, but under the circumstances, we think that the construction of a road of this kind would be of immense advantage to a large and growing population in both counties. The people residing in the upper portion of Nevada county are now compelled to freight their supplies the distance of from twenty to forty miles, when had we a road leading from this place they would be able to obtain their goods by traveling from two to eight miles, and at a cost of at least two-thirds of what they at present are compelled to pay.

**Was Washington Perjured.**—It is a favorite saying with men of the throwaway order that all men are perjured who have taken an oath to support the Constitution of the United States, afterwards joined the rebellion. George Washington and other leaders of the Revolution of '76 had taken an oath of allegiance to the King of England; did they also commit perjury? *—Herald.*

We will not pause to discuss the irrelevance of the above for a name which has been the common and honored heritage of every true American, of whatever State or section. We will not honor a cur so paltry as the above proves it author to be by offering evidence that the Father of his Country was bound by no oath to do otherwise than he did, but we will suggest that Washington, pure and unperjured as he was, would not have had the audacity to claim office under the British government, had our Revolution failed, while we are quite certain that the English government would not have conferred, had he asked it, and most assuredly neither that nor any other wise government would confer office on him or any other rebel revolutionist who had, like Davis, Toombs, Floyd and others of our Southern statesmen, not only perjured themselves but turned the power entrusted to them by the government toward its destruction.

**DEBATABLE.**—The San Francisco *Call*, in referring to the strictures of the Sacramento *Union* on the antecedents and present status of John W. Wilcox, late Assemblyman from Mariposa, says: "Proportionately, John has done five times as much for the Union Party in this State as the Union has."

We are left to blind conjecture as to the precise value of "proportionately," as used in the above extract, and whether size, circulation or frequency of issue are the matters with reference to which relative services are calculated. But, as we have been constrained to remark heretofore, the *Call* is irresistibly logical and an infallible figurer, consequently we are bound to believe that in proportion to size, circulation, issue, muscle or some occult quality, the brawny blacksmith has precisely quintupled his journalistic villifier in the benefits conferred on the Union Party. So much admitted, there can be no question but John deserves well of the party, and verily, if he lives long enough and has a good streak of luck, he shall have his reward.

**NEW YORK AND MASSACHUSETTS.**—The intelligent Caucasian voters of the City of New York, the metropolis of the New World have elected Ben and Fernando Wood, James Brooks and John Morrissey as the fittest of all the immense population to represent and legislate for them in the halls of Congress. The people of that city ought to know who can properly represent them, but we very much doubt whether the most "ignorant nigger" in South Carolina could have made a worse selection for general purposes. Two colored men have been elected to the Legislature of Massachusetts, one from Boston and the other from Charleston. Chase Mitchell, who was elected from the most aristocratic district in Boston, is a printer and lost a leg in battle before Richmond. Morrissey's constituents are probably indignant at this action of the Bostonians.

**A HORRIBLE AFFAIR.**—From the San Mateo County *Gazette* we learn that, on Tuesday, the 6th inst., two men, Wm. Anderson alias Norwegian Bull, and Richard Duval, alias Chapman Pirate, were burned to cinders in the cabin of one Billy Walker, near Woodside, San Mateo county. Drunkenness, resulting from the free use of "schnapps" was the probable cause of the fire and of their inability to escape. When discovered, the bodies had mainly been devoured by dogs—the lungs and heart of one of the men having been recovered from a dog which had partially devoured them. The coroner's jury, after hearing all the evidence, rendered a verdict that "the two men were burnt to death in Billy Walker's cabin."

**WHEAT IN SAN FRANCISCO.**—The *Call* of November 9th has the following concerning the movement of wheat at the Bay: "In yesterday's issue we mentioned the fact that ten thousand sacks of wheat had been received during the previous twenty-four hours. It appears from inquiries that yesterday's receipts were more than double those of the day previous, and that the amount received was twenty thousand five hundred and twenty sacks. There have been one hundred thousand one hundred and ninety-five sacks landed on the wharves since Sunday last."

**LOSERS AND REPUTATION IN GEORGIA.**—Considerable feeling is exhibited throughout Georgia on the subject of reputation. It is thought an effort will be made on the meeting of the Legislature, in November, to relieve the people from the payment of certain debts contracted prior to and during the late war. The plea urged for reputation is the loss of the slaves and the failure of the crops. The amount of property returned in the State for 1865 is \$307,000,000; in 1860 it was \$630,322,777; loss to the State over \$323,000,000.

**THE WINNERS WERE LUCKY.**—Morris, of the American Hotel, and Duggs, of the Store and Stripes—all of Auburn, were mutually victimized by a band of strolling players, recently. They concluded to "play off" their inferior at a game of "heards," the winner to treat. It is almost superfluous to add that Duggs was the expert, was the lucky loser of the demand, and the winner of full four inches of "brandy straight."

## AUTOGRAPHIC REPUBLICANISM AND REPUBLICAN MONARCHISM.

To dispel cherished illusion is seldom pleasant though often profitable. On no subject are the Athen can people more arrogantly complacent—in the discussion of none do they indulge in more excessive rodomontade, than when the perfection of Republicanism illustrated by the structure and workings of our Government is the subject matter of discourse.

Because we believe our people sincerely devoted to true republicanism; because we believe that the theories which they cherish are habitually outraged by those in high places; because their assumptions and boasts render them ridiculous in the eyes of all intelligent observers so long as these outrages are tolerated, we have assumed the unpalatable task of pointing out certain particulars in which the American people tolerate autocratic assaults against true republicanism, that would have defroned any British monarch since the first Stuart was crowned King of England.

No intelligent reader will require to be informed that there is a general similarity between the structure of our Government and that of Great Britain. In the English system of government the powers and prerogative of the crown are rather apparent than real—the Premier and Ministry selected by him constitute the actual Executive, and these powers and duties are almost identical with those of our President and his Cabinet. The National Judiciary systems of the two governments are also identical. The same rights, privileges and powers are governed by similar rules to those of our two houses of Congress. Theoretically, the selections of these various departments of government are controlled, in our case by republicanism, and in England by monarchical principles. How would it be, should we demonstrate that, in practice, we are tending toward monarchism and they toward republicanism? In selecting the Chief Executive our course is by agents selected by popular suffrage, and, according to our republican theory, the person thus chosen is the Executive representative of those who chose him. In theory the English people have no voice in choosing the Premier, the true Executive, the choice of that officer being one of the prerogatives of the crown, and "the King can do no wrong" is the nominal cornerstone of the English government. And yet the English people, through representatives of their selection in the Commons, can, by a bare majority vote, unseat a Ministry whose policy they condemn, the Queen's appointment, contrary, notwithstanding. Our Chief Executive, on the other hand, not only sets up a policy in opposition to the representative expression of the people and their direct repudiation of his policy, is "calm and serene as a summer day" and obstinately adheres to his policy.

The assumption of such an attitude by his counterpart in the British government would send the Premier to the block, and the sovereign who retained him, together with throne and dynasty would be overwhelmed by a storm of popular indignation. It is in the Constitution of the higher branch of the Legislative department, however, that the most marked difference in favor of the superior republicanism of our institutions is customarily claimed. The English House of Lords, unlike the Sovereign and the Ministry, is in fact what it is assumed to be, independent of the masses—the representative of aristocracy, the law of primogeniture and the union of Church and State. About all of the monarchism, pretty nearly all that is repugnant to our theory of republicanism in the English system of government, practically considered, consists in the unrepresentative organization of the House of Lords. Theoretically considered, the most consummate statesmanship displayed by the founders of our Government consisted in the organization of the United States Senate as a representative of States and a purely republican check on probable tendencies to absolute democracy. Here, it has been claimed, more than in any other department, is the purity of our republicanism and the perfection of our system illustrated.

We prefer to have Senators instead of Lords participate in legislating for us, because they are our representatives instead of being independent or only representatives of a class to which they do and we do not belong. While the members of the House of Representatives represents our individual sovereignty, the Senator represents us in our capacity of parts of an aggregated sovereignty, but his position is none the less that of a representative. If a Senator may vote and maintain a course of action in direct conflict with the clearly expressed opinions and wishes of his constituents, and use his position to execute his own, in antagonism to their policy and interests, autocracy and not republicanism is illustrated by his action. A notable instance of the overthrow of republicanism is furnished by Senators Buckalew and Cowan of Pennsylvania. Through them, and then only, has Pennsylvania as a State, a voice in shaping our National policy. If they know the will of Pennsylvania and represent it, their course conforms to the theory of which we are so boastful; if they know that will and deliberately violate it, and set up their own against their course is autocratic. Senators Norton, of Minnesota; Dixon, of Connecticut, and more especially Doollittle, of Wisconsin, who has been requested to resign by his immediate constituents, might also be cited as illustrations of anti-republican tendencies.

We hold that of the two—our poor privilege of electing men who may at once assume autocratic powers in defiance of our known views and wishes, or the Englishman's right to remove those who act counter to the popular will, the latter is by far the more valuable and truly republican. If a bare majority may unseat the English Executive, and a majority of two-thirds is insufficient to induce ours to ever so slightly modify his policy, the less we prate about republicanism and citizen sovereignty the better.

**NOT A BARBER.**—Benj. Hageoney, the colored man who was killed at Cisco recently, was a barber, and not a barber, as stated in a former issue. We have this information from Mr. Chase O'Brien, a colored friend of deceased, who is of the opinion that many of the latter's friends and relatives abroad would be led into false conclusions as to identity, by seeing him mentioned as a barber. Hageoney died at Cisco, on Tuesday, the 6th inst.

**THANKSGIVING.**—Gov. Low has recommended the observance of Thursday, the 29th inst., as a day of public Thanksgiving and prayer. This is the same day mentioned in the Proclamation of a day of National Thanksgiving by President Johnson. To please the Governor, we will observe the day, both in the manner he recommends and by the consumption of any and all turkeys, etc., which our ardent and admiring patrons may see fit to forward.

## ALTA CORRESPONDENCE.

ALTA, November 13, 1886.  
ED. ENQUIRER:—Your valuable paper ought to have a correspondent from our burg. Of what importance to your readers are your valuable letters from Paris, London, Berlin, St. Petersburg, Canton, New York, or even San Francisco? The Atlantic telegraph has knocked all that into "pi." revolutions, insurrections, wars, the death of Louis Napoleon, or any other man, in places so remote, would amount to nothing; but when you come to a man killed here or at Cisco, or even a decent sized fight, a cow killed on the track, or the cars running off, why, then, something everybody is interested in. This is in the matter of reliable news items for daily circulation, etc., we are a long way ahead of your folks. Dutch Flat is only a few miles from the "out-squirt." Do you doubt it?—[By no manner of means. In all that has rendered Alta infamous, Dutch Flat, unaccountably yields the palm.—Ed.] If so, where do you get your fight, assaults, homicides, accidents, etc. Witness your lawsuits, daily examined, tried or disposed of by your stern Justice of the Peace. Sir, when Alta leaves Dutch Flat subsides—monotony will reign supreme. Why not then "catch the fleeting moments as they fly." (That's as near the saying as I remember.) Now, then, in lieu of some better person, "I drop you these few lines, hoping they may," etc. In the first place the great question of importance with us is: When will we have to pull up stakes here on account of the Railroad being completed to Cisco; on this point opinions differ, some having believed that by this date the cars would be running to that point; but now, the general impression is, that the track, even if laid, will not be in running order during the winter, certainly, even with good weather, the laying of the track will occupy nearly a month longer, and if storms (which are always probable at this time of the year) should occur, of course there is no telling much about it. Some say the Company will push along at all hazards; others say they (the Company) don't want to leave here this winter. Probably the truth is—what can be done will be done. If keeping the cars running to Cisco from this place during the winter can be done, it will be done. There may be slides, either above or below this place during the rainy season, which will stop them for a time, but labor and perseverance will in the end succeed. Business keeps about the same as usual; stages make their regular trips; the "tiger" keeps his "lick;" boarding houses their "hash," and a few their old "drunks;" Coleman, his "rent," and the old "iron horses" make day and night hideouts with their shrieks, and puffs and groans as they try to get up hill. An 116 feet grade, with a dozen heavily loaded freight cars, is no sardine. It "makes the far fly," but they manage to do it, somehow. "Well, now I will close, but if anything new turns up, I will fill a P. S. You must excuse us for not advertising in your columns often than we do, but the truth is, as the hymn goes: "We ain't got long to tarry." You may have to write our epitaph, (I mean Alta's), in a few days. We are short lived, we know it. We belong to the genus Ephemeris. We have grown up like a flower; we shall be cut down like the grass; we shall wither. We shall be known no more of men—we shall be forgotten; but we are setting our house in order and getting ready to "fold our tents, and like the Arab, steal silently away." BOURBON.

A GREAT PUBLIC CONVENIENCE.—We call special attention to the advertisement of the California Commercial Brokerage Association in another column. It is the design of this association to give country consumers the benefits of San Francisco and Sacramento prices and assortments of goods by a prompt supply of any article ordered which may be procurable in either of those markets. It frequently occurs that people in the interior require articles which the necessities of trade do not require country dealers to keep on hand. Under the auspices of this Association any one within the sphere of their operations can procure precisely what they want when they want it. We have been surprised that none of the go-ahead business men who are so numerous in California have heretofore initiated such a movement as the one under consideration. It is certainly a praiseworthy and entitled to patronage. Those wishing to give the Association a trial can do so without personal risk, as there will be no compulsion to take goods unless the order is literally fulfilled without profit, other than the regular commission and carriage.

THE BANK OF CALIFORNIA.—The attention of our patrons is called to the advertisement of the Bank of California, published elsewhere in our columns. With a paid-up capital of five million dollars, this is one of the heaviest and most solvent banking institutions on the American Continent, and has been the first institution of the kind ever established in our State, which has commanded the respect and confidence of similar institutions abroad. W. C. Ralston, the Cashier and principal manager of the business of this concern stands confessedly in the front rank of living financiers. It manifestly is, and has been his principal aim to interlock the interests and welfare of the Bank of California with those of the community which surrounds it, and on which it must rely for profitable support, and to establish California credit on a respectable basis abroad. The broad views and liberal policy of this institution deserve and must command the respectful recognition of our entire business community.

POSTPONED.—The meeting preliminary to the organization of a Debating Club, has been postponed until Saturday evening next, when it is hoped there will be a general attendance. The meeting will be held at Golden Eagle Hall.

NOTICE.—Rev. P. Y. Cool will deliver a lecture to the young men of Dutch Flat and vicinity, in the M. E. Church next Sabbath evening, November 18th. Subject—Self-made, or not made at all. All are respectfully invited.

RELIGIOUS.—There will be preaching every Sabbath morning at 11 o'clock and evening at 7 o'clock, in the Methodist Episcopal Church, by the pastor, Rev. P. Y. Cool. Prayer meeting, every Thursday evening at 7 o'clock in the Church.

BULLION FROM MEADOW LAKE.—The amount of bullion shipped from Meadow Lake by Wells, Fargo & Co.'s Express, for the month of October, was \$3,674.78, of which the U. S. Grant sent \$4,750, the Mohawk and Montreal \$1,294, scattering \$238.

TWO PER CENT A MONTH.—The California Chronicle says no county can afford to pay such rates of interest. To remedy it the editor calls for the National currency.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. TOWN, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divert themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 340, Washington street, San Francisco. Dec-3m

MEDICAL ADVICE.—DR. W. K. DOWNEY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of success. We are personally acquainted with gentlemen who have suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Downey, who in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defalcation of others to establish his reputation, but of another's fame. The Doctor conducts his own Institute in such a manner as to be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appears to be that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

A NEW AND GRAND EPOCH IN MEDICINE.—Dr. Maggell is the founder of a new Medical System. The quantitative, whose vast internal doses enable the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent dyspepsia, with a host of other wonderful and all-healing Salves. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggell's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggell's Pills are not of the class that are swallowed by the dozen, and of which every box full is taken, creating an absolute necessity for another. One or two of Maggell's Pills suffice to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant. There is no griping, and no interference with the functions of the liver. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This quality makes the medicines very desirable for the wants of delicate females. All venereal and eruptive diseases are literally extinguished by the disinfectant power of Maggell's Salve. In fact, it is here announced that MAGGELL'S PILLS, PLEURALGIC AND PLEURALGIC PILLS, cure where all others fail. Which for Burns, Scalds, Childbirth, Cuts and all abrasions of the skin MAGGELL'S SALVE is infallible. Sold by J. Maggell, 11 Pine street, New York, R. H. McDonald & Co., San Francisco, and all Druggists, at 25 cts. per box. j7 12m

SPECIAL MEDICAL NOTICE.—DR. CHAS. H. TOZER would most respectfully inform the sick and afflicted that his Medical Institute is at the same place, corner of Kearny and Jackson streets, San Francisco, where he has been established for many years, for the cure of special complaints. Having relinquished his old mode of practice, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, corner of Kearny and Jackson streets, San Francisco.

THORNTON, the great English Astrologist, Clairvoyant and Psychometrist, who has astonished the scientific classes of the Old World, has now located herself in Hudson, N. Y. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomètre, guarantees to produce a life-like picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can attest. She will send, when desired a certified certificate, or written guarantee, that the picture is what it purports to be.
